MAKING MORE OUT OF WOOD

LIGNA 2023 | 15–19 May
Hannover Fairground, Germany
ligna.de

LIGNA

LIGNA 2023, as one of the world's leading trade fairs for the timber industry, will take place in Hannover, Germany, on **15–19 May**.

We invite you to visit the booths of our partners.

LIGNA is the major highlight of the year for the timber sector, providing the best overview of the current developments and new technologies in the modern timber industry.

MTG EESTI OÜ

- We have over 25 years of experience in the supply of woodworking machinery and equipment.
- We help customers to find the best technical solutions.
- We cooperate with leading equipment manufacturers in Europe and Scandinavia and are a partner for our customers in Estonia and the Baltics.
- We have helped to implement some of the largest wood industry projects in the Baltics.
- Our extensive experience and high level of technical expertise are our greatest assets. As the main link between equipment manufacturers and customers, our priority is to provide the best solutions and to ensure complete customer satisfaction.

WEIMA Maschinenbau GmbH.

Shredding machines in the plastic, wood and recycling industry. Waste handling lines and briquetting.

weima.com

Hall: 12
Box: D21

Merlin Technology GmbH.

Leading supplier of air humidification systems and moisture measuring devices.

merlin-technology.com

Hall: 13
Box: B20

Z-LASER GmbH. Line lasers, laser modules, laser projectors and complete laser systems.

z-laser.com

Hall: 15
Box: C15

Robert Bürkle GmbH. Press and coating technologies. Laminating lines. Production lines of door, flooring and building materials.

burkle.tech

Hall: 17
Box: F19

CML Finishing S.r.l. Spray coating machines, painting robots and painting lines. Painting line handling.

cmlfinishing.it

Hall: 17
Box: F19

Holtec GmbH & Co. KG. Sawmill equipment, log yards, log and package crosscut saws.

holtec.de

Hall: 25
Box: D50,
F65
Hall: 26
Box: C37

Microtec S.r.l. The most innovative scanning and optimisation provider for the sawmilling and wood processing industry.
